SUSHI ROLL

ONIGIRI (RICE BALL)

## HANDLING INSTRUCTIONS

- Since the sheets have already been heat treated, it is Ready-To-Use.
- There is a chance of the sheets tearing when:
  1. High moisture ingredients are used.
  2. Hot ingredients are used.
  3. Applying too much strength when wrapping the ingredients.
- Not suitable for frying
- Once the roll wrap is completed and tightly wrapped, very lightly apply water to the wrap to fasten the roll.  
If it is still challenging to fasten the roll, use a sticky ingredient such as mayonnaise.
- Upon opening the package, please consume as soon as possible.
- Avoid direct sunlight, high temperature and high humidity.
- Exposure to direct light may cause color to fade. However, there is no impact on the quality of the product.
- May be frozen or refrigerated. Leave in room temperature to make the sheets more pliable.
- To enhance freshness, the package contains an Oxygen Absorber. The Oxygen Absorber should not be consumed.
