Ingredients: Fresh mature 100% Coconuts

COCONUT VINEGAR

Coco Vinegar is made from 100% fermented coconut water and is used intensively for cooking and as preservatives. It is also a flavoring agent for pickles, salad sauces and condiments. It is plenty of vitamins and minerals such as phosphorus, protein, potassium and sodium. It helps in digestion and improved quality of meat and fishes. It is healthier alternative for synthetic water.

Coco Vinegar helps to prevent obesity and liver damage and delay breast cancer progression.

Flavoring may be used, provided the nature is declared on the label. Among the optional ingredients blended for spicy flavor are Chili, garlic and ginger. The acidity is 4.5 % of absolute acetic acid.

COCONUT CREAM/ MILK

Coconut milk comes from the white flesh of mature brown coconuts, which are the fruit of the coconut tree and it can provide essential vitamins and nutrients, including vitamins and minerals. It may also contain a lot of calories and saturated fats.

About 93% of its calories come from fat, including saturated fats known as [medium-chain triglycerides](#) (MCTs).
