Company profile

Jiangxi Kanyi Food 1td. was built in 1996 by a businessman from Zhejiang Province, and is a professional manufacturer of ice cream and frozen products, with products covering many provinces in China and exhibiting in Malaysia and Hong Kong, China. At present, the sales scale is in the forefront of Chinese counterparts.

Jiangxi Kanyi Food 1td. now has 73 patents and cooperates with Nanchang University and other universities in production, learning and research. It has won many honorary titles such as "China Famous Trademark", "National High-tech Enterprise", "Honest Enterprise" and "Top 100 Advanced Enterprises of National Food".

Our star products include: Kangyi Northeast milk ice cream, dream chaser's crisp cone, Kangyi Fruity popsicles, Xi Chaice cream, etc. Kangyi Northeast milk ice cream, with 20% raw cow's milk added, contains protein and casein, silky and delicate, lip-smacking. It is in short supply all over the country and is loved by consumers.

In addition, Jiangxi Kanyi Food ltd. has created the first high-drawing "dream chaser's crisp cone" in China, which has become the best-selling mid- to high-end crisp cone brand in the central and southern regions with its full and beautiful appearance, exquisite and delicate taste, and diversified flavors.

The company insists on scientific management, in production, it adopts complete and advanced production equipment, newly upgraded automatic safety production management system, equipped with international advanced disinfection system, which can effectively and steadily kill bacteria and microorganisms to retain the natural flavor of raw materials; in green environmental protection, the company has established automatic energy-saving control system for sewage treatment, and the daily treatment of sewage can reach 2000 tons; in transportation and storage, the first carbon dioxide refrigeration room is built to perfectly meet the demand of refrigeration, and a newly upgraded cold chain system is introduced to ensure the taste of products.
