

Regarding ROCK ICE®

KOKUBO's flagship product is ROCK ICE®.

ROCK ICE® embodies a high level of transparency and resistance to melting, and KOKUBO also takes great care over making ROCK ICE® the right shape.

ROCK ICE® melts slowly, so it continues to keep beverages cold over an extended period, and because ROCK ICE® is free from impurities, drinks can be enjoyed without any unwelcome additional taste.

Regarding KOKUBO's Sweets

Using our special expertise in refrigeration technology, we developed this frozen dessert using carefully selected ingredients from the best producers.

We deliver it to you with its "freshly made flavor".

The dessert is instantly frozen as soon as it is made, thereby minimizing the use of unnecessary preservatives.

You can rest assured knowing that we are providing a safe, high-quality product for you to enjoy.
